

## U.S. Multinational Tech Company Saves 65%

## **Objective**

Attain LEED Credits in design of research headquarters.

## **Overview**

Two HLR® modules were installed on the roof of this sevenstory building in May 2015. The HVAC system has fan coil units with two dedicated outside air systems (DOAS) located on the roof.

## **Outcomes**

See below graph and summary of results comparing the impact of Conventional Mode to HLR® Savings Mode.

- Compliance with LEED IAQP
- Pilot Credit ACP 68: 9 LEED Credits
